## NOT FOLLOWING PLAN FOR PAVING

**First Street Contractor Lays Brick on Cushion of Dry Sand and Cement Mixture**

**AGAINST BOARD'S ADVICE**  
**Commissioners Will Insist on Him Laying Brick in Green Cement in Next Block**

Experimenting with a brick street that is to cost the county close to \$26,000 continues to be a favorite pastime in West First street. The contractor started laying brick this morning in the block between Main and Morgan streets against the advice of the county commissioners. The original plans and specifications call for the laying of the brick in concrete, a process known as the monolithic method.

The concrete was placed in this block off the street last week and is now so hardened that it is impossible to follow the plans. As a substitute the brick are being laid on a cushion of sand in which has been mixed dry cement. The experiment may not be accepted by the commissioners and the contractor was so informed. The engineer also was opposed to this method, but the superintendent went ahead with the work.

The idea is that when the brick are well sprinkled the sand and dry cement will adhere and in a manner act in the same way as if the brick had been laid in green concrete as provided in the plans and specifications. After the street has been sprinkled then the usual slushing process will be followed. The contractor has no roller as designed in the plans and specifications and has ordered one. Before the newly laid brick can be rolled he will have to wait for the roller.

At the start of the next block it is expected that he will be made to follow the plans. The commissioners visited the scene of the brick laying this morning and were not at all satisfied with the work.

The paving brick, according to the commissioners are not being laid right and the engineer told the contractor no less than three times this morning but little attention was paid. Instead of placing the brick so that the lugs all face in the same direction many of the brick were placed in the wrong way. The contractor told the commissioners this didn't make any difference. It is expected that these brick will be taken up before the street is finally accepted and the commissioners believe that the time to remedy the thing is now when they are first put in. People who have watched the controversy predict that unless Tribble changes his way an open break with the commissioners is bound to follow.

## CHARLES PERKINS FINED \$50 TODAY

**Sentence to Penal Farm is Suspended Because of the Defendant's Health**

**JUDGE GIVES HIM A LECTURE**

Judge Sparks this morning pronounced sentence on Charles Perkins, who pleaded guilty last week to a charge of operating a "blind tiger," fining him \$50 and imposing a six months' sentence at the penal farm. Judge Sparks gave Perkins a lecture and then suspended the penal farm sentence.

Judge Sparks' entry on the docket states that "on account of the serious condition of the defendant's health the court is of the opinion that the interest of the community does not demand that this judgment be inflicted so long as the defendant behaves well."

Perkins was indicted jointly with Joe Lakin. Lakin has not yet entered a plea.

## NEW SPEAKS TO PARTY WORKERS

**Predicts Hottest Campaign in Indiana Since '80's' at Organization Meeting Today**

**D. W. COMSTOCK ALSO HERE**

Predicting the hottest campaign in Indiana since the '80's," Harry S. New, Republican candidate for United States senator urged the Republicans of Rush county to better perfect their organization in an address this afternoon to 200 workers. Mr. New declared that the party with the best organization was going to win. He also pointed out how important it is to elect two United States senators from this state as the future complexion of the senate depends on Indiana.

The Republican headquarters was crowded with interested party workers, including precinct committeemen, candidates and others. The meeting was along the lines of organization. D. W. Comstock of Richmond, Republican candidate for congress, was also present and addressed the crowd following Mr. New.

## ENROLLMENT IS HIGHER TODAY

**Slight Increase Over Last Year is Revealed at Opening of Rushville Schools.**

**16 MORE IN THE HIGH SCHOOL**

**Figures Will be Larger Because More Will Enter—Longer Hours This Year.**

The public schools of Rushville got off to a good start this morning, the enrollment being slightly in excess of that last year. The total enrollment, including the combined high school was 952. The grades contain a total of 684 pupils while the combined high school had an enrollment of 268. Of this number ninety belong to the junior high school and 178 in the regular four-year high school.

All of the different buildings showed a gain with the exception of the Havens school. At this school one of the grades has been divided by sending part of the pupils to the Graham Annex and this is said by school officials to have been the cause of the falling off.

The enrollment by buildings was as follows: Jackson, 228; Graham Annex, 224; Havens school, 185, and Washington school, 47. The high school enrollment showed an increase over last year in the four-year department. Last year on opening day the attendance was 162 as compared to 178 this year.

The school officials expect these figures to be increased tomorrow as there are many pupils who failed to enroll today. New attendance figures for the enrollment are expected before the week is out. Many pupils came to the high school this morning on transfers from the schools out over the county.

The school buildings were in first class condition for the opening, all of them having been disinfected. Physicians stated that the health conditions among children are especially good and there was nothing to mar the opening.

A slight change in time has been announced for the high school. The morning programs will begin at eight o'clock and the tardy bell will ring at 8:30 o'clock. The afternoon session of the high school starts at one o'clock and continues until four o'clock. The morning and afternoon sessions of the high school are divided into four periods each.

All the members of the faculty were present for the first session with the exception of E. W. Barrington, who wired that he found it impossible to reach the city in time for the opening session, but stated that he would be here by tomorrow.

Schools in six townships also opened today — Noble, Richland, Union, Walker, Jackson and Ripley. The other townships began last Monday.

## IMMENSE BRIDGE SPAN COLLAPSES

**Twenty-Five are Plunged to Death in St. Lawrence When Part Being Hoisted Falls**

**CROWD SEES CATASTROPHE**

**Big Span Which Buckled and Then Collapsed Weighed 5,000 Tons—Few Rescued**

(By United Press.)

Quebec, Sept. 11.—Twenty-five men were plunged to death today when the central span of the big \$17,000,000 Cantilever Quebec bridge over the St. Lawrence river collapsed just as it was being swung into place marking what would have been the final work on one of the greatest engineering feats in the world.

Thousands of persons who had come to witness the spectacle, including cabinet and parliament members and engineers saw the accident. First reports were that the entire force of 90 men who were on the bridge had perished. The St. Lawrence Bridge Co., contractors for the structure, announced, however, that their latest estimate showed 25 killed. Only five or six survivors of those who were plunged into the river were picked up.

The big span which buckled and then collapsed weighed 5,000 tons. It was floated down on barges while thousands in boats of every description and massed on shore cheered. Steamboat whistles were tooting and the enthusiasm of the great crowd was at its height when the accident occurred. The span had been hoisted but 15 of the 150 feet necessary. The supporting jack on the lower end gave way, the span broke in the center and with steel girders snapping with reports like rifle shots, the structure plunged into the water.

The crowds looked on dumb with amazement as the great steel span dived out of sight. It carried with it a small portion of the south cantilever arm. Four or five men working on top of the span were hurled into the water. The rest were carried down. The fleet of launches and tugs hurried forward but succeeded in rescuing few.

The big span sank in 200 feet of water, disappearing completely.

In 1907 a section of the bridge collapsed as it was nearing completion, killing 75 men.

## YOUNG MAN DIES SUDDENLY

**H. M. Meyer Expires of Heart Disease While Sitting in Chair**

Harry M. Myer, 23 years old, son of Mr. and Mrs. John N. Meyer, living on the J. H. Frazee farm in Noble township, died this morning at seven o'clock following a brief illness from heart disease. He had been ill for four days and died this morning suddenly while sitting in a chair. A post mortem examination revealed that death was caused by a rupture of the right oracle. He is survived by his parents and three brothers and one sister. The funeral services will be conducted Wednesday afternoon at two o'clock at the Orange Christian church and burial will take place in the North cemetery there in charge of the Red Men lodge of Orange, of which he was a member.

The case of Otto E. Humes against Warren Robbins and Bessie Robbins was dismissed by the plaintiff and the costs paid. The suit was on a breach of warranty, the demand being \$850.

## SUB-COMMITTEES TO BE APPOINTED

**Executive Committee of Centennial Home Coming and Fall Festival Meets Tonight**

**NO NOMINATIONS FOR QUEEN**

The executive committee of the Centennial, Home Coming and Fall Festival the week of October 9 will meet tonight and elect a chairman to take charge. It is expected that events will move rapidly this week in making plans for the week of pleasure here. The committee tonight will appoint a number of sub-committees, thus equalizing the work.

No nominations for the centennial queen contest were received today, but it was expected that a number will be made before long. The nominations close Saturday night at six o'clock and the voting will be started only on girls who have been legitimately nominated. For that reason those who have a favorite that they want to vote for are urged to see that she is nominated this week. Nominations can be made by filling out the blank on page six and mailing it to the Daily Republican.

## ONE MAN IS SHOT IN STRIKE RIOT

**Workers at Glass Plant in Yorktown, Ind., Attempt to Stop Strike Breakers From Working.**

**PICKETS ABOUT THE FACTORY**

(By United Press.)  
Muncie, Ind., Sept. 11.—Rioting and bloodshed were imminent at Yorktown near here today, when strikers at the Saillen-Goodin glass factory attempted to prevent strike-breakers working.

Paul Estes, age 26, a striker, is near death from a bullet wound in his abdomen. He is said to have been shot by Walter Said, a strike breaker. Pickets are stationed about the factory.

Robert Estes, brother of Paul Estes, had a portion of the index finger of his right hand shot off when he tried to wrest the revolver from Said. Said was arrested and charged with assault and battery with intent to kill. The strikers want a three-cent increase on each gross of bottles. They organized in a secret meeting at noon and denied there will be violence.

## NOT LIKELY TO GO THROUGH HERE

**Charles E. Hughes Will Stop in 37 Indiana Towns, but Probably Not in Rushville**

**SET SPEECH AT RICHMOND**

**Not Probable Special Would be Sent Over Branch Division—Watson in Owen County**

**Asks For Hughes**  
County Chairman Fon Riggs wired A. T. Hert at western headquarters today, asking that Rush county be put on Charles E. Hughes itinerary while he is in Indiana. Hughes will speak in Richmond Thursday night, September 21.

Rush county Republicans are awaiting with interest the announcement of the definite itinerary of Republican Candidate Charles E. Hughes to see if he will pass through this city.

Such an eventuality seems unlikely, however, as the nearest point to Rushville Mr. Hughes will touch will be Richmond, and it is not probable that his special would be sent down on the branch division of the Pennsylvania through this city, but would remain on trunk lines as near as possible.

It was announced in Indianapolis today that he would visit in thirty-seven Indiana towns, but will make set speeches only in Battleground, Fort Wayne, Richmond, Marion, South Bend, Gary, and Indianapolis where he will make his closing speech of the Indiana tour Saturday night, September 23. That meeting will be turned into an old-fashioned rally.

Local interest politically centered today on the election in Maine. The old axiom that as goes Maine so goes the election, still seems to be in vogue, because the Maine election always comes about two months before the election in other states. Republican managers are claiming a plurality of 15,000 in Maine and Democrats say they are confident of a margin of at least 3,000 votes.

James E. Watson of this city is continuing his strenuous campaign for the United States campaign. He was the chief speaker at a Republican meeting in the new state park in Owen county today. Mr. Watson was here a few hours Sunday.

The Indianapolis Star Sunday printed two and a half columns about Watson's speech at the Republican rally in Bedford Saturday night. Mr. Watson quoted liberally from government records to show that the country's prosperity at this time is due to the war in Europe, and that the industrial depression of 1914 and 1915 was due to the Underwood tariff, and not, as President Wilson declared in his Indianapolis speech of January, 1915, to the war in Europe.

"In his speech delivered at Tomlinson Hall, Indianapolis, on the eighth day of January, 1915, President Wilson admitted the unfortunate industrial and commercial condition of the country at that time, in that speech proposed an employment bureau to take care of idle workmen who were walking the streets with nothing to do, and squarely charged that the European war and not the Underwood tariff was the cause of this destruction and was the fruitful mother of all our industrial woes," said Mr. Watson.

"The same President is now proclaiming that we never had any industrial depression under the Underwood tariff and that the European war has nothing whatever to do with the present prosperity of this country."

## HEALTH OVER STATE IS GOOD

Dr. Hurty Says Conditions are  
Slightly Better Than Last Year  
Except in Indianapolis

### HAVE EPIDEMIC OF TYPHOID

Teachers and School Children Com-  
pelled to Present Certificates  
of Health

(By United Press.)

Indianapolis, Ind., Sept. 11.—In-  
diana's schools opened today with  
health conditions generally good—  
with the exception of right here at  
Indianapolis where a typhoid epi-  
demic of serious proportions grips  
the city.

Dr. J. N. Hurty, state health  
commissioner, said today that con-  
ditions of health generally are, if  
anything, a little better than last  
year, with the exception of Indiana-  
polis. There are no other epidemics,  
he said. Indiana has been above  
normal so far as infantile paralysis  
is concerned, the most affected area  
being about Fort Wayne and Colum-  
bia City.

Every teacher and school child  
here was asked to present a health  
certificate today showing that he  
had been vaccinated against typhoid  
fever.

The order for such vaccinations,  
issued some time ago by the city  
board of health, caused much un-  
favorable comment in many sections  
of the city. For some time there  
was talk of refusing to comply with  
the order, many parents believing  
that the vaccination would be of  
small protection and that the city  
was taking only half hearted meas-  
ures to stem the typhoid epidemic.

Over 600 cases are now on the  
records of the health board. Citi-  
zens are asserting that if the city  
would take proper measures to ob-  
literate open vaults and purify the  
city water, instead of demanding  
vaccinations the cause of sickness  
would be removed and preventatives  
would be unnecessary.

Parents who investigated were  
advised that a refusal to comply  
with the order would result in a visit  
to juvenile court.

Miss Edith Lore of this city, sus-  
tained a fractured rib while unload-  
ing manure spreaders one day re-  
cently, according to word received  
here.

The rally day services at the  
Christian Sunday school yesterday  
were an unqualified success. The  
attendance mounted to 534. Jess  
Pugh gave a reading that was very  
appropriate to the occasion and an  
instrumental quartet from the Sun-  
day school orchestra played a  
number.

## WOMAN SO WEAK COULD NOT SLEEP

Made Well by Lydia E. Pinkham's Vegetable Compound.

North Oxford, Mass.—“I had lost three children and I was all run down and so weak I could not sleep at night. My eyesight would leave me and everything I ate upset my stomach. I was very nervous and if I would start to sweep I would have to stop and lie down before I could finish. I was looking over the paper one day and read of a woman who felt as I did, and took Lydia E. Pinkham's Vegetable Compound, so I took it too. Now I am proud to tell you I am feeling fine and have given birth to a boy baby. He is my 'Pinkham' baby. I keep a bottle of Compound in my house always.”—Mrs. PETER MARCO, Box 54, North Oxford, Mass.

Sleeplessness, indigestion, weakness, and nervousness are symptoms which indicate a lowered vitality of the female organism, and the tonic, strengthening properties of the good old fashioned roots and herbs, contained in Lydia E. Pinkham's Vegetable Compound, are just what is needed by every woman who is in Mrs. Marco's condition.

For free advice in regard to any annoying symptom write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

### Why Not Here Also?

"Textiles, principally cotton goods, keep the greater plantations, dyestuffs obtained from Germany at low prices on favorable credit terms and a high protective tariff to shield the industry, it has flourished and greatly reduced the imports of the more ordinary cotton goods from abroad."—U. S. Consul General A. L. M. Gottschalk, Rio Janeiro.

If a protective tariff will do it in Brazil, why will it not do it here? Our cotton mills were humming merrily when the Republican tariff law was in force? The industry went to pieces, laborers went to the bread line, and dividends went to the dickens after the Democratic near-free-trade tariff law was passed. We have the raw cotton. We could manufacture our own dyestuffs, if the party in power would give us adequate protection. In the face of a pending economic revolution the Democrats still adhere to their shabby tariff policy. If the majority of this country are in favor of the protective policy we shall elect a Republican President this fall. If the sophistry, "He kept us out of war" prevails, and Wilson is re-elected, the country will be chanting: "He kept us out of work," when the war is over.

Said Woodrow Wilson, some time

## REALTY TRADE BOOMING AGAIN

Transfer Records Last Half of August Show Cash Considerations Were \$47,821.15

### TWO BIG FARM SALES MADE

One in Noble Township Sells for \$12,487.65 and One in Center for \$11,250.

The real estate transfer records for the last half of August show that the realty trade is booming once again after a rather dull period during the summer months.

Total cash considerations mentioned amounted to \$47,821.15. The total was boosted by two large farm sales, one piece of land in Noble township bringing \$12,487.65 and one in Center selling for \$11,250. The transfers were as follows:

James W. and Jessie C. McFartridge to Harry McFartridge, one-half acre in Posey township, \$1.

Thomas K. Mull to Scott R., and

ago: "A very thoughtful preacher pointed out the other day that one of the first quotations in Our Lord's Prayer is, 'Give us this day our daily bread,' which would seem, perhaps, to indicate that our Lord knew what every statesman must know, that the spiritual life of the Nation can not exist unless it has physical life; that you can not be an altruist and patriot on an empty stomach." It has been ordered that by the sweat of his brow shall man earn his bread. But a man can not find work if the place of his employment is closed by European competition invited by a near-free-tariff law.

### OH! MY BACK

The Expression of Many a Kidney Sufferer in Rushville

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Rushville proof:

Taylor M. Loyd, 940 W. Third St., Rushville, says: My back ached steadily and at times was so weak that I could hardly be about. The kidney secretions were first too frequent in passage, then again too seldom. I used about four boxes of Doan's Kidney Pills, which I got at Fox Bros. Drug Store, and they did just as recommended, relieving me in a short time.

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Loyd had. Foster-Milburn Co., Props., Buffalo, N. Y. —(Adv.)

## FANS TURNING TO FOOTBALL

Interest in Sport Picks up With Opening of School Today in Indiana Cities

GARY IS AGAIN IN FIELD

Championship Will be Hard to Determine Unless Better Schedules are Prepared

(By United Press.)

Indianapolis, Ind., Sept. 11.—With high school students going back to their books in many cities today, the high school football fan got busy with his pre season dopes and wondered whether the season of 1916 would bring forth a high school champion of Indiana.

If schedules prevailing in past seasons are to be the models for this year's football managers no state championship or anything but print paper will be possible—the reason being that Indiana high schools have not been scheduling inter-sectional games.

An authority on high school football suggested today that before it is too late several strong schools in northern Indiana should schedule games with the strongest teams in central Indiana and along the southwestern strip in the Wabash valley where the pig skin flourishes.

Gary, which led in the north, and Elkhart, which followed Gary last year, should schedule games with Logansport in Central Indiana or with the two high school teams in Terre Haute—preferably Garfield which had the edge on Wiley last year.

Logansport, Wabash and Greenfield, the ranking teams in Central Indiana last year, should go north and southwest for some of their games, even though longer trips than usual are necessitated, according to this man, who said that even if only one or two inter-sectional games broke into the dope sheet there would be a basis for a state high school championship.

Distances and poor transportation facilities north and south make games with northern teams less likely than games between central and southwestern Indiana.

### LOOKS GOOD TO SHEEKS

Crawfordsville, Ind., Sept. 11.—Fresh from the Harvard school for football coaches, where he spent six weeks learning new wrinkles of the game as the east sees it, Coach Paul P. Sheeks, of Wabash college took his first peep at his talent today. He put the Scarlet aspirants through their paces, passing out the statement that they looked good to him.

### PRACTICE AT NOTRE DAME

Notre Dame, Ind., Sept. 11.—Carter Field was the scene today of Notre Dame's first football practice for the season of 1916. With prospects none too bright, nevertheless Coach Harper expected to whip a creditable team into shape before midseason. The field has been enlarged and renovated; new bleachers will be erected and all that is now needed are mole skin warriors to cope with the stiff schedule that has been arranged.

### WILL HAVE SPEEDY TEAM

Gary, Ind., Sept. 11.—Gary's championship football team held its first 1916 practice today. Slightly lighter than last year, it will still be full of pep and fight, according to Jack Gilroy, who is in charge, and will show the class that made it last year's champions of northern Indiana. No inter-sectional games have yet been scheduled.

### WANTS GAME WITH GARY

Terre Haute, Ind., Sept. 11.—Having got the jump of many of the high school football teams in the state, Garfield, claimant for the state championship last season, was going strong today in preparation for the new season. Garfield started practice last week. No inter-sectional games have yet been scheduled, but some of the students are urging a game with Gary.

## Have You Seen the New Suits?

They are extremely beautiful, and the latitude of the styles permit an individuality not heretofore accorded. It has been our purpose to afford the ladies of Rush county a distinction in apparel, and our showing at present is very complete considering the time of the season. The materials are wool velour, broadcloth, velvet, bolivia, spingle, whipcord, gaberdine and serge. The colors are Burgundy, navy, plum, java brown, balsam green, Joffre blue, olive, taupe and black. The prices range from \$12.50 gradually up to \$75.00. We shall consider it a privilege to show you.

### Fashion's Latest Modes in Dresses

Our showing of dresses is many times larger than any previous season. For the high school and college miss, there are many variations of the famous Betty Wales model. For ladies, the Moyen Age type is regarded as ultra-fashionable, and this is developed in several different woolen fabrics and silks and satins, wool embroidery in various pastel shades being used to good advantage. Before deciding to have a dress made, see these that are ready to wear.

### DINNER PARTY

Will Inlow entertained a company of men at his home in North Harrison street yesterday with a dinner party and all day affair. The guests included Dr. Paul Martin of Chicago, Dr. DePrez Inlow of Chicago, Edgar Kaufman of Hamilton, Ohio, Robert Huffman of Greensburg, Dr. Dale Huffman of Indianapolis and Dr. Fred Inlow of Manila.

### SURPRISE DINNER

Yesterday would have been the 60th wedding anniversary of Mrs. Elizabeth Pearsey had Mr. Pearsey lived. In her honor, a surprise was given at her home in West Second street yesterday, with Mr. and Mrs. Morris Winship, the Misses Cora and Nelle Winship, Will Pearsey and son, Horace as guests. After the delicious dinner was served, the afternoon was pleasantly spent as Mrs. Pearsey gave interesting reminiscences of her wedding day.

### BATES-DOWNS

Miss Artie Bates, a well-known young lady of this city, and Hubert Downs of Milroy were married yesterday afternoon by the Rev. S. G. Huntington at the parsonage of the First Baptist church. The ceremony was performed at four o'clock after which the newly married couple went to their home one and one-half miles east of Milroy. It was completely furnished before their marriage. The bride is well known here and is an active member of the Baptist church.

### FOR COLLEGE GIRLS

In honor of several of their members who are to attend college this fall, the members of the Queen Esther Circle of St. Paul's M. E. church were pleasantly entertained by Mrs. Raymond Hargrove at her home in West Seventh street Saturday evening. The college girls present were the Misses Marian Sparks, Marian Scholl, Ramona Ewbank, Phyllis Dean and Marguerite Wolcott, the latter two being guests of the society.

During the business session which was held, Miss Gladys Bebout was elected as a delegate from the society to the conference to be held at Princeton, Ind., Oct. 31st, Nov. 1st and 2nd. After several other business matters were discussed, an agreeable social period was enjoyed during which dainty refreshments were served by the hostess.

### HILLIGOSS REUNION

Two hundred members of the Hilligoss family gathered yesterday at the city park for the annual reunion and a general good time together. The basket dinner was served in buffet style in the coliseum after which an extensive and interesting program was given by the guests and members of the family. The numbers on the program were:

Talk by Lorraine Hilligoss, incoming president.  
Talk by Frank J. Hall.  
Talk by Will M. Alexander.  
Reading of original poems by Mrs. Unstrum of Indianapolis.

How Mrs. Coones escaped from the tangle, persons who were on the scene soon afterward could not understand. She was able to lead the horse home. The buggy was damaged. The horse got tangled up in the wire fence.

(By United Press.)

Boston, Sept. 11.—Judged from New England's hub here this afternoon, in the light of fragmentary word from all sections of Maine, the Pine Tree state will break all records in the number of votes cast at the election which may point the way to the national vote in November.

Both Democratic and Republican leaders at Augusta today declared their belief that the total vote Maine cast in 1880—440,000—would be exceeded today. Splendid weather, a red hot campaign, pride of the down easterners in maintaining Maine's old prerogative of "pointing the way" all were held responsible for the outpouring of the votes. In the last three elections the total vote has not gone beyond 141,000.

The fact that a record vote is expected is due to these elements. The fact was emphasized at both headquarters in Augusta today that preliminary returns might be deceptive and should not be accepted as indicative of final results until a majority of the counties are in.

### BOTH PARTIES HOPEFUL

New York, Sept. 11.—While the ballots are being cast in Maine today, leaders of both the national political headquarters here were waiting.

Medill McCormick of Chicago brought word of a "sure Republican victory" to Republican headquarters.

## NOT FOLLOWING PLAN FOR PAVING

First Street Contractor Lays Brick  
on Cushion of Dry Sand and  
Cement Mixture

AGAINST BOARD'S ADVICE

Commissioners Will Insist on Him  
Laying Brick in Green Cement  
in Next Block

Experimenting with a brick street that is to cost the county close to \$26,000 continues to be a favorite pastime in West First street. The contractor started laying brick this morning in the block between Main and Morgan streets against the advice of the county commissioners. The original plans and specifications call for the laying of the brick in concrete, a process known as the monolithic method.

The concrete was placed in this block of the street last week and is now so hardened that it is impossible to follow the plans. As a substitute the brick are being laid on a cushion of sand in which has been mixed dry cement. The experiment may not be accepted by the commissioners and the contractor was so informed. The engineer also was opposed to this method, but the superintendent went ahead with the work.

The idea is that when the brick are well sprinkled the sand and dry cement will adhere and in a manner act in the same way as if the brick had been laid in green concrete as provided in the plans and specifications. After the street has been sprinkled then the usual slushing process will be followed. The contractor has no rolls as designed in the plans and specifications and has ordered one. Before the newly laid brick can be rolled he will have to wait for the roller.

At the start of the next block it is expected that he will be made to follow the plans. The commissioners visited the scene of the brick laying this morning and were not at all satisfied with the work.

The paving brick, according to the commissioners are not being laid right and the engineer told the contractor no less than three times this morning but little attention was paid. Instead of placing the brick so that the lugs all face in the same direction many of the brick were placed in the wrong way. The contractor told the commissioners this didn't make any difference. It is expected that these brick will be taken up before the street is finally accepted and the commissioners believe that the time to remedy the thing is now when they are first put in. People who have watched the controversy predict that unless Tribune changes his way an open break with the commissioners is bound to follow.

## ENROLLMENT IS HIGHER TODAY

Slight Increase Over Last Year is  
Revealed at Opening of  
Rushville Schools.

16 MORE IN THE HIGH SCHOOL

Figures Will be Larger Because More  
Will Enter—Longer Hours  
This Year.

The public schools of Rushville got off to a good start this morning, the enrollment being slightly in excess of that last year. The total enrollment, including the combined high school was 952. The grades contain a total of 684 pupils while the combined high school had an enrollment of 268. Of this number ninety belong to the junior high school and 178 in the regular four-year high school.

All of the different buildings showed a gain with the exception of the Havens school. At this school one of the grades has been divided by sending part of the pupils to the Graham Annex and this is said by school officials to have been the cause of the falling off.

The enrollment by buildings was as follows: Jackson, 228; Graham Annex, 224; Havens school, 185, and Washington school, 47. The high school enrollment showed an increase over last year in the four-year department. Last year on opening day the attendance was 162 as compared to 178 this year.

The school officials expect these figures to be increased tomorrow as there are many pupils who failed to enroll today. New attendance figures for the enrollment are expected before the week is out. Many pupils came to the high school this morning on transfers from the schools out over the county.

The school buildings were in first class condition for the opening, all of them having been disinfected. Physicians stated that the health conditions among children are especially good and there was nothing to mar the opening.

A slight change in time has been announced for the high school. The morning programs will begin at eight o'clock and the tardy bell will ring at 8:30 o'clock. The afternoon session of the high school starts at one o'clock and continues until four o'clock. The morning and afternoon sessions of the high school are divided into four periods each.

All the members of the faculty were present for the first session with the exception of E. W. Barrington, who wired that he found it impossible to reach the city in time for the opening session, but stated that he would be here by tomorrow.

Schools in six townships also opened today—Noble, Richland, Union, Walker, Jackson and Ripley. The other townships began last Monday.

## IMMENSE BRIDGE SPAN COLLAPSES

Twenty-Five are Plunged to Death  
in St. Lawrence When Part  
Being Hoisted Falls

CROWD SEES CATASTROPHE

Big Span Which Buckled and Then  
Collapsed Weighed 5,000  
Tons—Few Rescued

(By United Press.)  
Quebec, Sept. 11.—Twenty-five men were plunged to death today when the central span of the big \$17,000,000 Cantilever Quebec bridge over the St. Lawrence river collapsed just as it was being swung into place marking what would have been the final work on one of the greatest engineering feats in the world.

Thousands of persons who had come to witness the spectacle, including cabinet and parliament members and engineers saw the accident. First reports were that the entire force of 90 men who were on the bridge had perished. The St. Lawrence Bridge Co., contractors for the structure, announced, however, that their latest estimate showed 25 killed. Only five or six survivors of those who were plunged into the river were picked up.

The big span which buckled and then collapsed weighed 5,000 tons. It was floated down on barges while thousands in boats of every description and massed on shore cheered. Steamboat whistles were tooting and the enthusiasm of the great crowd was at its height when the accident occurred. The span had been hoisted but 15 of the 150 feet necessary. The supporting jack on the lower end gave way, the span broke in the center and with steel girders snapping with reports like rifle shots, the structure plunged into the water.

The crowds looked on dumb with amazement as the great steel span dived out of sight. It carried with it a small portion of the south cantilever arm. Four or five men working on top of the span were hurled into the water. The rest were carried down. The fleet of launches and tugs hurried forward but succeeded in rescuing few.

The big span sank in 200 feet of water, disappearing completely. In 1907 a section of the bridge collapsed as it was nearing completion, killing 75 men.

SET SPEECH AT RICHMOND

Not Probable Special Would be  
Sent Over Branch Division—  
Watson in Owen County

## Asks For Hughes

County Chairman Fon Riggs wired A. T. Hett at western headquarters today, asking that Rush county be put on Charles E. Hughes' itinerary while he is in Indiana. Hughes will speak in Richmond Thursday night, September 21.

Rush county Republicans are awaiting with interest the announcement of the definite itinerary of Republican Candidate Charles E. Hughes to see if he will pass through this city.

Such an eventuality seems unlikely, however, as the nearest point to Rushville Mr. Hughes will touch will be Richmond, and it is not probable that his special would be sent down on the branch division of the Pennsylvania through this city, but would remain on trunk lines as near as possible.

It was announced in Indianapolis today that he would visit in thirty-seven Indiana towns, but will make set speeches only in Battleground, Fort Wayne, Richmond, Marion, South Bend, Gary, and Indianapolis where he will make his closing speech of the Indiana tour Saturday night, September 23. That meeting will be turned into an old-fashioned rally.

Local interest politically centered today on the election in Maine. The old axiom that as goes Maine so goes the election, still seems to be in vogue, because the Maine election always comes about two months before the election in other states. Republican managers are claiming a plurality of 15,000 in Maine and Democrats say they are confident of a margin of at least 3,000 votes.

James E. Watson of this city is continuing his strenuous campaign for the United States campaign. He was the chief speaker at a Republican meeting in the new state park in Owen county today. Mr. Watson was here a few hours Sunday.

The Indianapolis Star Sunday printed two and a half columns about Watson's speech at the Republican rally in Bedford Saturday night. Mr. Watson quoted liberally from government records, to show that the country's prosperity at this time is due to the war in Europe, and that the industrial depression of 1914 and 1915 was due to the Underwood tariff, and not, as President Wilson declared in his Indianapolis speech of January, 1915, to the war in Europe.

In his speech delivered at Tomlinson Hall, Indianapolis, on the eighth day of January, 1915, President Wilson admitted the unfortunate industrial and commercial condition of the country at that time, in that speech proposed an employment bureau to take care of idle workmen who were walking the streets with nothing to do, and squarely charged that the European war and not the Underwood tariff was the cause of this destruction and was the fruitful mother of all our industrial woes," said Mr. Watson.

"The same President is now proclaiming that we never had any industrial depression under the Underwood tariff and that the European war has nothing whatever to do with the present prosperity of this country."

## HEALTH OVER STATE IS GOOD

Dr. Hurty Says Conditions are  
Slightly Better Than Last Year  
Except in Indianapolis

### HAVE EPIDEMIC OF TYPHOID Teachers and School Children Com- pelled to Present Certificates of Health

(By United Press.)

Indianapolis, Ind., Sept. 11.—Indiana's schools opened today with health conditions generally good—with the exception of right here at Indianapolis where a typhoid epidemic of serious proportions grips the city.

Dr. J. N. Hurty, state health commissioner, said today that conditions of health generally are, if anything, a little better than last year, with the exception of Indianapolis. There are no other epidemics, he said. Indiana has been above normal so far as infantile paralysis is concerned, the most affected area being about Fort Wayne and Columbia City.

Every teacher and school child here was asked to present a health certificate today showing that he had been vaccinated against typhoid fever.

The order for such vaccinations, issued some time ago by the city board of health, caused much unfavorable comment in many sections of the city. For some time there was talk of refusing to comply with the order, many parents believing that the vaccination would be of small protection and that the city was taking only half hearted measures to stem the typhoid epidemic.

Over 600 cases are now on the records of the health board. Citizens are asserting that if the city would take proper measures to obliterate open vaults and purify the city water, instead of demanding vaccinations the cause of sickness would be removed and preventative would be unnecessary.

Parents who investigated were advised that a refusal to comply with the order would result in a visit to juvenile court.

Miss Edith Lore of this city, sustained a fractured rib while unloading manure spreaders one day recently, according to word received here.

The rally day services at the Christian Sunday school yesterday were an unqualified success. The attendance mounted to 534. Jess Pugh gave a reading that was very appropriate to the occasion and an instrumental quartet from the Sunday school orchestra played a number.

## WOMAN SO WEAK COULD NOT SLEEP

Made Well by Lydia E. Pinkham's Vegetable Compound.

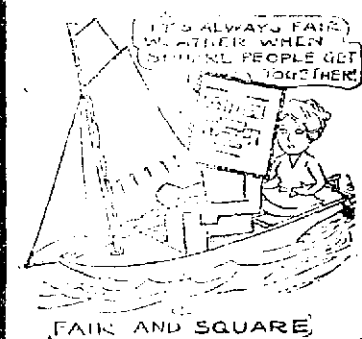

North Oxford, Mass.—"I had lost three children and I was all run down and so weak I could not sleep at night. My eyesight would leave me and everything I ate upset my stomach. I was very nervous and if I would start to sweep I would have to stop and lie down before I could finish. I was looking over the paper one day and read of a woman who felt as I did and took Lydia E. Pinkham's Vegetable Compound, so I took it too. Now I am proud to tell you I am feeling fine and have given birth to a boy baby. He is my 'Pinkham' baby. I keep a bottle of Compound in my house always."—Mrs. PETER MARCO, Box 54, North Oxford, Mass.

Sleeplessness, indigestion, weakness, and nervousness are symptoms which indicate a lowered vitality of the female organism, and the tonic, strengthening properties of the good old fashioned roots and herbs, contained in Lydia E. Pinkham's Vegetable Compound, are just what is needed by every woman who is in Mrs. Marco's condition. For free advice in regard to any annoying symptom write to Lydia E. ### Why Not Here Also?

"Textiles, principally cotton goods, keep the greater plantations, dyestuffs obtained from Germany at low prices on favorable credit terms and a high protective tariff to shield the industry, it has flourished and greatly reduced the imports of the more ordinary cotton goods from abroad."—U. S. Consul General A. L. M. Gottschalk, Rio Janeiro. If a protective tariff will do it in Brazil, why will it not do it here? Our cotton mills were humming merrily when the Republican tariff law was in force? The industry went to pieces, laborers went to the bread line, and dividends went to the dickens after the Democratic near-free-trade tariff law was passed. We have the raw cotton. We could manufacture our own dyes, if the party in power would give us adequate protection. In the face of a pending economic revolution the Democrats still adhere to their shabby tariff policy. If the majority of this country are in favor of the protective policy we shall elect a Republican President this fall. If the sophistry, "He kept us out of war" prevails, and Wilson is re-elected, the country will be chanting: "He kept us out of work," when the war is over.

Said Woodrow Wilson, some time

## REALTY TRADE BOOMING AGAIN

Transfer Records Last Half of  
August Show Cash Considerations Were \$47,821.15

### TWO BIG FARM SALES MADE

One in Noble Township Sells for \$12,478.65 and One in Center for \$11,250.

The real estate transfer records for the last half of August show that the realty trade is booming once again after a rather dull period during the summer months.

Total cash considerations mentioned amounted to \$47,821.15. The total was boosted by two large farm sales, one piece of land in Noble township bringing \$12,478.65 and one in Center selling for \$11,250. The transfers were as follows:

James W. and Jessie C. McFarbridge to Harry McFarbridge, one-half acre in Posey township, \$1.

Thomas K. Mull to Scott R. and

ago: "A very thoughtful preacher pointed out the other day that one of the first quotations in Our Lord's Prayer is, 'Give us this day our daily bread,' which would seem, perhaps, to indicate that our Lord knew what every statesman must know, that the spiritual life of the Nation can not exist unless it has physical life; that you can not be an altruist and patriot on an empty stomach." It has been ordered that by the sweat of his brow shall man earn his bread. But a man can not find work if the place of his employment is closed by European competition invited by a near-free-tariff law.

### OH! MY BACK

The Expression of Many a Kidney Sufferer in Rushville

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Rushville proof:

Taylor M. Loyd, 940 W. Third St., Rushville, says: My back ached steadily and at times was so weak that I could hardly be about. The kidney secretions were first too frequent in passage, then again too seldom. I used about four boxes of Doan's Kidney Pills, which I got at Fox Bros. Drug Store, and they did just as recommended, relieving me in a short time.

Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Loyd had. Foster-Milburn Co., Props., Buffalo, N. Y. —(Adv.)

## FANS TURNING TO FOOTBALL

Interest in Sport Picks up With Opening of School Today in Indiana Cities

GARY IS AGAIN IN FIELD

Championship Will be Hard to Determine Unless Better Schedules are Prepared

(By United Press.)

Indianapolis, Ind., Sept. 11.—With high school students going back to their books in many cities today, the high school football fan got busy with his pre season dopes and wondered whether the season of 1916 would bring forth a high school champion of Indiana.

If schedules prevailing in past seasons are to be the models for this year's football managers no state championship or anything but print paper will be possible—the reason being that Indiana high schools have not been scheduling inter-sectional games.

An authority on high school football suggested today that before it is too late several strong schools in northern Indiana should schedule games with the strongest teams in central Indiana and along the southwestern strip in the Wabash valley where the pig skin flourishes.

Gary, which led in the north, and Elkhart, which followed Gary last year, should schedule games with Logansport in Central Indiana or with the two high school teams in Terre Haute—preferably Garfield which had the edge on Wiley last year.

Logansport, Wabash and Greenfield, the ranking teams in Central Indiana last year, should go north and southwest for some of their games, even though longer trips than usual are necessitated, according to this man, who said that even if only one or two inter-sectional games broke into the dope sheet there would be a basis for a state high school championship.

Distances and poor transportation facilities north and south make games with northern teams less likely than games between central and southwestern Indiana.

### LOOKS GOOD TO SHEEKS

Crawfordsville, Ind., Sept. 11.—Fresh from the Harvard school for football coaches, where he spent six weeks learning new wrinkles of the game as the east sees it, Coach Paul P. Sheeks, of Wabash college took his first peep at his talent today. He put the Scarlet aspirants through their paces, passing out the statement that they looked good to him.

### PRACTICE AT NOTRE DAME

Notre Dame, Ind., Sept. 11.—Carter Field was the scene today of Notre Dame's first football practice for the season of 1916. With prospects none too bright, nevertheless Coach Harper expected to whip a creditable team into shape before midseason. The field has been enlarged and renovated; new bleachers will be erected and all that is now needed are mole skin warriors to cope with the stiff schedule that has been arranged.

### WILL HAVE SPEEDY TEAM

Gary, Ind., Sept. 11.—Gary's championship football team held its first 1916 practice today. Slightly lighter than last year, it will still be full of pep and fight, according to Jack Gilroy, who is in charge, and will show the class that made it last year's champions of northern Indiana. No inter-sectional games have yet been scheduled.

### WANTS GAME WITH GARY

Terre Haute, Ind., Sept. 11.—Having got the jump of many of the high school football teams in the state, Garfield, claimant for the state championship last season, was going strong today in preparation for the new season. Garfield started practice last week. No inter-sectional games have yet been scheduled, but some of the students are urging a game with Gary.

## Have You Seen the New Suits?

They are extremely beautiful, and the latitude of the styles permit an individuality not heretofore accorded. It has been our purpose to afford the ladies of Rush county a distinction in apparel, and our showing at present is very complete considering the time of the season. The materials are wool velour, broadcloth, velvet, bolivia, spingle, whipcord, gaberdine and serge. The colors are Burgundy, navy, plum, java brown, balsam green, Joffre blue, olive, taupe and black. The prices range from \$12.50 gradually up to \$75.00. We shall consider it a privilege to show you.

### Fashion's Latest Modes in Dresses

Our showing of dresses is many times larger than any previous season. For the high school and college miss, there are many variations of the famous Betty Wales model. For ladies, the Moyaen Age type is regarded as ultra-fashionable, and this is developed in several different woolen fabrics and silks and satins, wool embroidery, in various pastel shades being used to good advantage. Before deciding to have a dress made, see these that are ready to wear.

## HEAVY VOTE IS CAST IN MAINE ELECTION

Splendid Weather, Hot Campaign and Historic Pride Combine to Make it Possible

### EARLY RETURNS DECEPTIVE

(By United Press.) Boston, Sept. 11.—Judged from New England's hub here this afternoon, in the light of fragmentary word from all sections of Maine, the Pine Tree state will break all records in the number of votes cast at the election which may point the way to the national vote in November.

Both Democratic and Republican leaders at Augusta today declared their belief that the total vote Maine cast in 1880—440,000—would be exceeded today. Splendid weather, a red hot campaign, pride of the down easterners in maintaining Maine's old prerogative of "pointing the way" all were held responsible for the outpouring of the votes. In the last three elections the total vote has not gone beyond 141,000.

The fact that a record vote is expected is due to these elements. The fact was emphasized at both headquarters in Augusta today that preliminary returns might be deceptive and should not be accepted as indicative of final results until a majority of the counties are in.

### BOTH PARTIES HOPEFUL

New York, Sept. 11.—While the ballots are being cast in Maine today, leaders of both the national political headquarters there were waiting.

Medill McCormick of Chicago brought word of a "sure Republican victory" to Republican headquarters.
